

Electric Vehicle Sales Analysis

Goal

Analyze EV sales trends to identify growth opportunities and support business decisions.

Objectives

- Analyze year-wise sales
- Compare state performance
- Evaluate vehicle categories
- Study monthly trends
- Discover market insights

Key Insights

- Strong growth after 2021
- Uttar Pradesh leads EV sales
- 2-Wheelers dominate the market
- Seasonal monthly demand exists

Business Recommendations

- Expand charging infrastructure
- Focus on top-selling states
- Strengthen 2W and 3W segments
- Apply predictive analytics

Conclusion

India's EV market is expanding rapidly, offering significant opportunities for manufacturers, policymakers, and investors through data-driven planning.
